

City

City is a truly versatile and ingenious design: the characteristic cover bead on the frame stile, which can be made in a choice of designs, disguises the joint between units to visually create an unbroken run of furniture. In addition, City can be used for free-standing or fully fitted installations. Pull-out laundry baskets, drawer stacks and adjustable shelving add the finishing touches. Now just choose the timber finish...

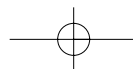

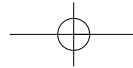

1. City fitted installation supplied primed for hand painting on-site. Carrara marble top and splash-back, Levington back-to-wall WC and semi-countertop basin with Traditional mono basin mixer. Adjustable shelves are fitted inside the cupboard units and there is a pull-out laundry basket. The mirror has a rectangular pelmet with low-voltage lighting.

1. City fully-fitted installation in Maple with Blue Pearl granite top and splash-back with twin inset basins and Traditional mono basin mixers. An optional TG&V design with plain reeds can be seen on the doors and panels. A Levington back-to-wall WC and bidet is fitted. The open tall sitOn wall units and mirror pelmet have low voltage lighting installed.

The extremely versatile offset breakfront arrangements such as here are made almost entirely to the clients' own specifications.

City

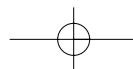

1. This beautiful free-standing City installation is in Cherry Maple with Nero Absoluto granite top and twin underpin basins with Monet one-hole mixers with pop-up wastes. The raised and fielded trims, fitted bevel-edge mirrors, arched pelmets with low voltage lighting and black porcelain handles complete the look.

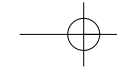

Arrangements such as these two here are made almost entirely to the clients' own specifications with an infinite choice of sizes and layouts.

1. City break-front arrangement in Golden Oak with Bianco Universale granite top and splash-back with twin underpin basins fitted with Traditional one hole basin mixers which match the chrome cabinet hinges and door knobs. The bevel-edged mirror has a swept top with an arched pelmet which incorporates low voltage lighting as does the tall sit-on open wall units with adjustable glass shelves.

3. Detail of the Goodwood underpin basins, Traditional one hole basin mixers with pop-up wastes set on the Bianco Universale granite top and splash-back.

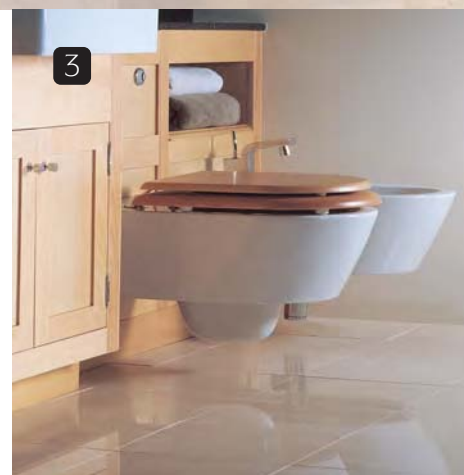

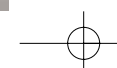

City

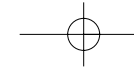

1, 2 & 3. City back-to-wall arrangement in Natural Beech with optional raised plinth (skirting is standard) and plain reeds. Merston semi-countertop basins with Hey Joe mono basin mixers with 'click-clack' waste levers, sit on a Verdi Perola granite top and 200mm splash-back. The matching mirror has a light bridge with low voltage lighting. The sleek Piuma WC and bidet are wall-hung on Grohe Dal frames. The concealed cistern has a water-saving, silent fill dual-flush mechanism.

4. A back-to-wall installation in Natural Beech with a shaker design. The Laura WC and bidet feature a water-saving, silent fill dual-flush mechanism and an Ocean mono bidet mixer. Tall open wall units with a contemporary cornice concealing low voltage lighting sit on an Emerald Green granite top.

City

1

1 & 2. City range in American Dark Walnut with satin glass doors with plain reeds and a central drawer stack. The Crema Nuovo marble top and splash-backs have Colworth insert basins and Quadra mono mixer taps fitted. A tall wall unit with matching satin glass door, fitted mirrors with lighting bridge and low voltage lighting complete the arrangement.

3. A pull-out laundry basket can be fitted as an alternative to the drawers.

1 & 2. City back-to-wall bathroom units in Natural Oak with twin Lavington semi-countertop basins and Traditional one hole mixers sitting on a Verdi Perola granite top and splash-back with swept top mirror and arched light pelmet with concealed low voltage lamps. The offset corner bath unit meets back-to-wall units with matching Verdi Perola granite top and splashbacks. The WC and bidet are Lavington units with a Grohe Dal concealed cistern with water-saving dual flush silent mechanism.

3. A City raised and fielded break-front unit in Natural Oak with Estromoz marble top and underpin basin with Traditional 3 hole basin mixer in Inca Gold. The tall sit-on open wall units and arched top over the mirror have concealed low voltage lighting.

4. A Donnington 950mm console basin on a Walnut unit with a Bell mono mixer. The basin is also available in 750mm, 850mm and 1050mm widths.

5. City arrangement in Maple with black finished raised and fielded details and matching Nero Absoluto granite top and Lavington semi-countertop basin and WC.

6. A break-front Shaker style design in Maple with optional chrome pull handles, Giallo Veneziano granite top, underpin basin and Traditional pillar taps.

7. A wall mounted arrangement in Maple with Shaker doors and drawer fronts, optional black trim and porcelain handles. The Nero Absoluto granite top and splash-back has a Chilgrove semi-countertop basin and Monet mono mixer tap. A matching mirror and low voltage lighting bridge completes the look.

All the units on these pages can be made-to-measure in virtually any size and design – just choose your look.
